

DAV VA Nurse of the Year Award

The recipient of this award could well be called the — “Lady with the Lamp”, a true Florence Nightingale for her efforts in making the South Dakota Honor Flight possible for many disabled WW II Veterans.

As a registered nurse employed by the Sioux Falls VA Medical Center for twenty-three years, she was instrumental in supervising the medical staff on all Honor Flights to Washington D.C.

From screening Veterans for health needs to overseeing that diabetic insulin, medication and oxygen was disbursed properly; she performed brilliantly on all eight Honor Flights.

The South Dakota Disabled American Veterans awarded Linda Anderson a plaque naming her VA Nurse of the Year Award at their DAV Department annual Convention in Rapid City recently.
